

**Guidelines for the realization of the
National Courses
and the
Grundtvig Training Courses
of the Grundtvig 1.1 Project
"TRANSITION – Training of transition professionals for early
childhood educational processes"**

The results of the pilot course in Stuttgart were realized by Dr Hilary Fabian, UK. She compiled a curriculum for National Courses and Grundtvig Training Courses.

This curriculum, which each participant of the pilot courses receives, is appended as guideline to realize the courses.

The National Courses have to be realized in each country at the latest to the end of July 2008. Each participant of the pilot course has to train 5 persons in the National Course (i.e. 10 persons in each country).

Each National Course comprises 16 lessons of 45 minutes.

The topics natural science and music have to be included into these courses.

Parents have to participate adequately in these courses as well.

By realizing these courses, it is important that participants exchange their experiences.

After realizing the National Courses, each trainer has to prepare a short report as an evaluation, which will be forwarded to the coordinating institution:

*Elternverein Baden-Württemberg e.V.

Fax: 00 49 79 30 88 52
Email: info@elternverein-bw.de*

Keep in mind:

In each country there are different practices and therefore also different terms.

Scheme for the compilation of reports to evaluate the National Courses:

In which country was the National Course realized:

Date of the National Course:

Place of event:

Name of trainer:

Background of trainer:

Length of course (number of hours):

Name of participants:

Background of participants (Profession or field of activity):

Which contents were mainly discussed at the National Course?

Type of topics – not only modules, but also country specific peculiarities:

Particular interest and questions respectively of the participants:

How did the transfer from theory to practice work?

Personal comments/ experiences:
